**Independent Auditor’s Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

To the Governing Board  
Beresford, South Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Beresford, South Dakota, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated July 12, 2023. A disclaimer of opinion was issued on the aggregate discretely presented component units because the financial data of the component units were not audited.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Beresford’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Beresford’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Beresford’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City’s financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Beresford's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings as item 2022-001.

## **City's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the City's response to the findings identified in our audit. The City's response to the findings identified in our audit are described in the accompanying Schedule of Findings. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record, and its distribution is not limited.

A handwritten signature in blue ink that reads "CIO of LLC".

Elk Point, South Dakota  
July 12, 2023

**City of Beresford**  
Schedule of Findings  
For the Year Ended December 31, 2022

---

**Schedule of Prior Audit Findings**

The prior audit report contained no written audit comments.

**Schedule of Current Audit Findings**

**Audit Finding Number 2022-001 – Compliance Finding**

Expenditures were paid in excess of appropriations for some departments.

Criteria:

SDCL 9-12-9 requires that the governing body shall not add to the expenditures any sum in excess of the amount provided for in the annual appropriation ordinance except as otherwise specially provided.

Condition Found:

In 2022, the expenditures paid from the General Fund exceeded amounts budgeted in 7 different functions.

Recommendations:

We recommend that when such a situation occurs in the future, a supplemental budget be adopted to utilize unobligated fund balances.

Management's Response:

The City of Beresford will monitor the budgets of each fund more closely to ensure that overspending does not occur. If expenditures are anticipated to exceed the annual appropriation, the City of Beresford will adopt a supplemental appropriation to utilize unobligated fund balances.

## Independent Auditor's Report

City Council  
City of Beresford  
Beresford, South Dakota

### Report on the Audit of the Financial Statements

#### Disclaimer of Opinion and Unmodified Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Beresford, South Dakota, as of and for the year ended December 31, 2022, and the related notes to the financial statements. We were not engaged to audit the financial statements of the aggregate discretely presented component units. These financial statements collectively comprise the City of Beresford's basic financial statements as listed in the table of contents.

#### Disclaimer of Opinion on the Aggregate Discretely Presented Component Units

Because of the Significance of the matter described in the Basis for Disclosure of Opinion and Unmodified Opinions section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements of the aggregate discretely presented component units of the City of Beresford. Accordingly, we do not express opinions on those financial statements.

#### Unmodified Opinions on the Governmental Activities, Business-type Activities, Each Major Fund, and Aggregate Remaining Fund Information.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Beresford, South Dakota as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### Basis for Disclaimer of Opinion and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to the financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of The United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Beresford and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified audit opinions.

## Matter Giving Rise to disclaimer of Opinion on the Aggregate Discretely Presented Component Units

The financial statements of the Beresford Housing and Redevelopment Commission and the Beresford Economic Development Commission have not been audited, and we were not engaged to audit the Beresford Housing and Redevelopment Commission or the Beresford Economic Development Commission's financial statements as part of the City's basic financial statements. The Beresford Housing and Redevelopment Commission and the Beresford Economic Development Commission financial activities are included in the City's basic financial statements as a part of the discretely presented component units and represent the assets, net position, and revenues of the City's aggregate discretely presented component units.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Beresford, South Dakota's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the City of Beresford, South Dakota's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Beresford, South Dakota's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal-control related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, the Schedule of the Municipal Proportionate Share of the Net Pension Liability (Asset), and Schedule of the City's Contributions listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

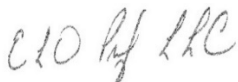

The City has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

## **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Combining Nonmajor Fund Financial Statements as listed in the Table of Contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated July 12, 2023 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**City of Beresford**  
 Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position  
 December 31, 2022

---

Total Fund Balances - Government Funds \$ 3,246,161

Amounts reported for governmental activities in the statement of net position are different because:

Net pension asset reported in governmental activities is not an available resource and therefore is not reported in the funds. 7,661

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. 7,311,063

Pension related deferred outflows are components of pension liability (asset) and therefore are not reported in the funds. 699,518

Long-term liabilities, including bonds payable and accrued leave payable are not due and payable in the current period and therefore are not reported in the funds.

Accrued Leave	(88,340)	
Lease Payable	(7,535)	
Certificates of Participation	<u>(3,679,875)</u>	(3,775,750)

Assets such as taxes receivable (delinquent) are not available to pay for current period expenditures and therefore are not deferred in the funds. 10,602

Pension related deferred inflows are components of pension liability (asset) and therefore are not reported in the funds. (445,880)

Net Position - Governmental Funds \$ 7,053,375

**City of Beresford**

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance  
to the Statement of Activities  
For the Year Ended December 31, 2022

---

Net Change in Fund Balances - Total Government Funds \$ 388,621

Amounts reported for governmental activities in the statement of activities are different because:

This amount represents capital asset purchases which are reported as expenditures on the fund financial statements but increase assets on the government wide statements. 231,788

This amount represents the current year depreciation expense reported in the statement of activities which is not reported on the fund financial statements because it does not require the use of current financial resources. (447,843)

Payment of principal on long-term debt is an expenditure in the governmental funds but the payment reduces long-term liabilities in the statement of net assets. 92,175

The issuance of long-term debt is an other financing source in the fund statements but an increase in the long-term liabilities on the government wide statements. (104,875)

Changes in the pension related deferred outflows/inflows are direct components of pension liability (asset) and are not reflected in the governmental funds. 34,093

Governmental funds do not reflect the change in accrued leave, but the statement of activities reflects the change in accrued leave through expenditures. (582)

Change in Net Position of Governmental Activities \$ 193,377

The accompanying Notes to Financial Statements are an integral part of this statement.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies:**

a. Financial Reporting Entity:

The reporting entity of the City of Beresford consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility), those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The City is financially accountable if its Governing Board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the City (primary government). The City may also be financially accountable for another organization if that organization is fiscally dependent on the City.

The Housing and Redevelopment Commission of the City of Beresford, South Dakota (Commission) is a proprietary fund-type, discretely presented component unit. The five members of the Commission elects its own chairperson, recruits, and employs its own management personnel and other workers. The Governing Board, though, retains the statutory authority to approve or deny or otherwise modify the Commission's plans to construct low-income housing units, or to issue debt, which gives the Governing Board the ability to impose its will on the Commission. Separately issued financial statements from the Housing and Redevelopment Commission may be obtained at Beresford City Hall.

The Beresford Economic Development Corporation is a legally separate proprietary fund-type, discretely presented component unit. The members of the City Council are members of the corporation along with four additional members elected by the City Council. Separately issued financial statements from the Beresford Economic Development Corporation may be obtained at Beresford City Hall.

The City participates in a cooperative unit with several other telephone companies, in a venture called South Dakota Network, Inc. See detailed note entitled "Joint Ventures" for specific disclosures. Joint Ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit but are discussed in these notes because of their relationship with the City.

**1. Summary of Significant Accounting Policies: (Continued)**

b. Basis of Presentation:

Government-Wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity, except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Discretely presented component units are legally separate organizations that meet certain criteria, as described in note 1.a, above, and may be classified as either governmental or business-type activities. See the discussion of individual component units in Note 1.a, above.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or it meets the following criteria:

1. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
2. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the City's financial reporting entity are described below:

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

**Governmental Funds:**

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is always considered to be a major fund.

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources (other than trusts for individuals, private organizations, or other governments or for major capital projects) that are legally restricted to expenditures for specified purposes.

Additional Sales Tax Fund – To account for an additional one percent sales tax which may be used only for capital improvement, land acquisition, the funding of public ambulances and medical emergency response vehicles, public hospitals, or nonprofit hospitals with fifty or fewer licensed beds and other public health care facilities or nonprofit health care facilities with fifty or fewer licensed beds, the transfer to the special 911 fund, the purchasing of fire fighting vehicles and equipment, and debt retirement (Ordinance #02-2005). This is a major fund.

Library Fund – to account for library operations obtained and used through governmental services. This is not a major fund.

Debt Service Funds – Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The Community Center and Clubhouse Debt Service Fund – to account for the required restricted cash and payments related to debt principal, interest and related costs of the community center and clubhouse bond issue. This is not a major fund.

Tax Increment Debt Service Fund #2 – to account for special assessments taxes, which may be used only for the payment of the debt principal, interest, and related costs. This is not a major fund.

Hybrid Turkey Tax Increment Fund – to account for the special assessment's taxes, which may be used only for the payment of the debt principle, interest, and related costs. This is not a major fund.

Capital Projects Funds – capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds or trust funds for individuals, private organizations, or other governments).

Grace V. Nelson Fund – to account for the financial resources to be used for the construction of a new ballfield. This is not a major fund.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

**Proprietary Funds:**

Enterprise Funds – Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met. Governments should apply each of these criteria in the context of the activity's principal revenue sources:

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit—even if that government is not expected to make any payments—is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- b. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Liquor Fund – financed by liquor, beer and merchandise sales, this fund accounts for the operation of the municipal liquor store. This is a major fund.

Water Fund – financed primarily by user charges, this fund accounts for the construction and operation of the municipal waterworks system and related facilities (SDCL 9-47-1). This is a major fund.

Electric Fund – financed primarily by user charges, this fund accounts for the construction and operation of the municipal electrical system and related facilities (SDCL 9-39-1 and 9-39-96). This is a major fund.

Sewer Fund – financed primarily by user charges, this fund accounts for the construction and operation of the municipal sanitary sewer system and related facilities (SDCL 9-48-2). This is a major fund.

Telephone Fund – financed primarily by user charges, this fund accounts for the construction and operation of the municipal telephone system and related facilities. This is a major fund.

Garbage Fund – financed by user charges, this fund accounts for the construction and operation of the municipal solid waste system and related facilities. This is a major fund.

Golf Course Fund – financed by user charges, this fund accounts for the operations of the golf course services. This is a major fund.

Cablevision Fund – financed by user charges, this fund accounts for the operations of the cable television service. This is a major fund.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements. Basis of accounting refers to “when” revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus:

Government-Wide Financial Statements

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements

In the fund financial statements, the “current financial resources” measurement focus and the modified accrual basis of accounting are applied to governmental fund, while the “economic resources” measurement focus and the accrual basis of accounting are applied to the proprietary fund types.

**Basis of Accounting:**

Government-Wide Financial Statements

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets are recorded when earned (usually when the right to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, are recognized when they become measurable and available. “Available” means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period for the City of Beresford is 30 days. The revenues which are accrued at December 31, 2022 are amounts due from the county and state interest.

Under the modified accrual basis of accounting, receivables may be measured but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have been met but for which revenue recognition criteria have not been met, are reported as a deferred inflow of resources.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

Expenditures are generally recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications:

Government-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified, as follows:

1. In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns.

e. Deposits and Investments:

For the purpose of financial reporting, “cash and cash equivalents” includes all demand and savings accounts and certificates of deposit or short-term investments with term to maturity at a date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist primarily of certificates of deposit whose term to maturity at date of acquisition exceeds three months, or those types of investments authorized by South Dakota Codified Laws (SDCL) 4-5-6.

f. Capital Assets:

Capital assets include land, buildings, machinery, and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. *Infrastructure assets* are long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations, and whether they are reported in government-wide or fund financial statements.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

Government-Wide Financial Statements:

Capital assets are recorded at historical cost, or estimated cost, where actual cost could not be determined. Donated capital assets are valued at their acquisition value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant, and which extend to useful life of a capital asset are also capitalized.

Infrastructure assets used in general government operations, consisting of certain improvements other than buildings, including roads, bridges, sidewalks, drainage systems and lighting systems, acquired prior to January 1, 2004, were not required to be capitalized by the City. Infrastructure assets acquired since January 1, 2004 are recorded at cost and classified as "Improvements other than Buildings".

For governmental activities Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP. Capital assets used in business-type activities/proprietary fund operations, construction-period interest is also not capitalized; this is in accordance with USGAAP.

Depreciation/Amortization of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, except for that portion related to common use assets for which allocation would be unduly complex, and which reported as Unallocated Depreciation/Amortization, with net capital assets reflected in the Statement of Net Position. Accumulated depreciation/amortization is reported on the government-wide Statement of Net Position and on each proprietary fund's Statement of Net Position.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	<b>Capitalization Threshold</b>	<b>Depreciation/ Amortization Method</b>	<b>Estimated Useful Life</b>
*Land and land rights	All	N/A	N/A
Improvements other than buildings	\$ 5,000	Straight-line	10-50 years
Buildings	5,000	Straight-line	50 years
Machinery and equipment	4,000	Straight-line	2-20 years
Intangible Lease Assets	4,000	Straight-line	5-20 years
Telephone property and improvement	1,000	Straight-line	5-23 years

\*Land, an inexhaustible capital asset, is not depreciated

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

Fund Financial Statements:

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the appropriate governmental fund upon acquisition. Capital assets acquired for use in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide financial statements.

g. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities consist primarily of general obligation bonds, certificates of participation, direct borrowings, lease liabilities, and compensated absences.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide financial statements.

h. Leases:

Lessee:

The City is a lessee for noncancellable leases of a postage meter. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$11,299 in the government wide statements.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

i. Program Revenues:

Program revenues derive directly from the program itself or from parties other than the City's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

1. Charges for services – These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
2. Program-specific operating grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
3. Program-specific capital grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

j. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

k. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Revenues, Expenses and Changes in Fund Net Position, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

l. Cash and Cash Equivalents:

The City pools the cash resources of its funds for cash management purposes. The proprietary funds essentially have access to the entire amount of their cash resources on demand. Accordingly, each proprietary fund's equity in the cash management pool is considered to be cash and cash equivalents for the purpose of the Statement of Cash Flows.

m. Equity Classifications:

Government-Wide Financial Statements:

Equity is classified as net position and is displayed in three components:

1. Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisitions, construction or improvement of those assets.
2. Restricted net position – Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted net position – All other net position that do not meet the definition of “restricted” or “net investment in capital assets.”

Fund Financial Statements:

Governmental fund equity is classified as fund balance, and may distinguish between “non-spendable,” “restricted,” “committed,” “assigned” and “unassigned” components. Proprietary fund equity is classified the same as in the government-wide financial statements.

n. Application of Net Position:

It is the City's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**1. Summary of Significant Accounting Policies: (Continued)**

o. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the City classifies governmental fund balances as follows:

Nonspendable – Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted – Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.

Assigned – Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund balance may be assigned by the City Council.

Unassigned – Includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The City uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Government would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The City does not have a formal minimum fund balance policy.

The purpose of each major special revenue fund and revenues source is listed below:

<u>Major Special Revenue Fund</u>	<u>Revenue Source</u>
Additional Sales Tax Fund	Taxes

p. Pensions:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. City contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**2. Violations of Finance-Related Legal and Contractual Provisions:**

The City is prohibited by statute from spending in excess of appropriated amounts at the department level. The following represents the significant overdrafts of the expenditures compared to appropriations.

<b>General Fund</b>	<b>Year Ended 2022</b>
General Government Building	\$ 3,385
Police	10,056
Fire	10,353
Highways and Streets	38,709
Parks	3,659
Pool	11,883
Community Subsidies	1,163

**3. Deposits and Investments Fair Value Measurement, Credit Risk, Concentrations of Credit Risk and Interest Rate Risk:**

The City follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

**Deposits** – The City’s cash deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 9-22-6, 9-22-6.1 and 9-22-6.2, and may be in the form of demand or time deposits. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank’s public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

**Investments** – In General, SDCL 4-5-6 permits City funds to be invested in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

**Fair Value Measurement** – The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based upon the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 are significant unobservable inputs.

The City has U.S. Treasury Notes at Level 2 holdings.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**3. Deposits and Investments Fair Value Measurement, Credit Risk, Concentrations of Credit Risk and Interest Rate Risk: (Continued)**

**Credit Risk** – State Law limits eligible investments for the City, as discussed above. The City has no investment policy that would further limit its investment choices.

As of December 31, 2022, the City had the following investments, not including certificates of deposits.

<u>Fund</u>	<u>Investments</u>	<u>Credit Rating</u>	<u>Maturity</u>	<u>Fair Value</u>
Electric	U.S. Treasury Notes	N/A	12/1/2039	\$ 476,370
Electric	U.S. Treasury Notes	N/A	12/1/2023	36,594
Community Center	U.S. Treasury Notes	N/A	12/1/2026	71,684
Second Penny	U.S. Treasury Notes	N/A	1/1/2024	32,278
Second Penny	U.S. Treasury Notes	N/A	12/1/2035	294,021
	Subtotal			<u>910,947</u>
External	SDFIT-Government			
Investment Pools	Cash Reserves	N/A	N/A	1,190,107
	Total Investments			<u>\$ 2,101,054</u>

The South Dakota Public Funds Investment Trust (SDFIT) is an external investment pool created for South Dakota local government investing. It is regulated by a nine-member board with representation from municipalities, school districts and counties. The net asset value of the SDFIT money market account (GCR) is kept at one dollar per share by adjusting the rate of return on a daily basis. Earnings are credited to each account on a monthly basis.

**Concentration of Credit Risk** – The City places no limit on the amount that may be invested in any one issuer.

**Interest Rate Risk** – The City does not have a formal investment policy that limits investment securities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Assignment of Investment Income** – State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The City’s policy is to credit all income from deposits and investments to the fund making the investment.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**4. Restricted Cash and Investments:**

Assets restricted to use for a specific purpose through segregation of balances in separate accounts are as follows:

Fund	Amount:	Purpose:
Additional Sales Tax	\$ 326,299	Debt Services, by debt covenants
Community Center	71,684	Debt Services, by debt covenants
Electric	512,964	Debt Services, by debt covenants
Total	\$ 910,947	

**5. Receivables and Payables:**

Receivables and payables are not aggregated in these financial statements. The City expects all receivables to be collected within one year.

**6. Inventory:**

Inventory in the General Fund consists of expendable supplies held for consumption. Supply inventories are recorded at cost.

Inventory acquired for resale in the proprietary funds is recorded as an asset when acquired. The consumption of inventories held for resale is charged to expense as it is consumed. Inventories held for resale are recorded at the lower of cost or market, on the first-in, first-out cost flow assumption.

Government-Wide Financial Statements:

In the government-wide financial statements, inventory is recorded as an asset at the time of purchase and charged to expense as it is consumed.

Fund Financial Statements:

In the fund financial statements, inventory is recorded as an asset at the time of purchase and charged to expense as it is consumed. Material supply inventories are offset by a nonspendable fund balance, which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**7. Property Taxes:**

Property taxes are levied on or before October 1, of the year preceding the start of the fiscal year. They attach as an enforceable lien on property, and become due and payable as of January 1, the first day of the fiscal year. Taxes are payable in two installments on or before April 30 and October 31 of the fiscal year.

The City is permitted by several state statutes to levy varying amounts of taxes per \$1,000 of taxable valuation on taxable real property in the City.

**8. Changes in Capital Assets:**

A summary of changes in capital assets for the year ended December 31, 2022 is as follows:

	<u>Balance</u> <u>12/31/2021</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>12/31/2022</u>
<b>Governmental Activities:</b>				
Capital assets, not being depreciated/amortized				
Land	\$ 577,045	\$ --	\$ --	\$ 577,045
Construction in progress	--	104,875	--	104,875
Total, not being depreciated/amortized	<u>577,045</u>	<u>104,875</u>	<u>--</u>	<u>681,920</u>
Capital assets, being depreciated/amortized				
Buildings	3,344,127	--	--	3,344,127
Improvements	7,276,283	62,649	17,456	7,321,476

Total	\$ 8,718,958	\$ 2,302,125

*Utilities Revenues Pledged:*

The City has pledged future water, electric, telephone and cable customer revenues, net of specified operating expenses:

The water fund will repay \$1,600,000 in water system bonds issued in March 2012. Proceeds from the bonds provided financing for the City's share of Lewis and Clark Rural Water Systems construction costs. The bonds are payable solely from water customer net revenues and are payable through 2026. Annual principal and interest payments on the bonds are expected to require 35 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$520,313. Principal and interest paid for the current year and total customer net revenues were \$129,643 and \$869,734, respectively.

The electric fund will repay \$1,855,000 in electric system bonds issued in March 2012. Proceeds from the bonds provided financing for improvements on the City's electric utility system. The bonds are payable solely from electric customer net revenues and are payable through 2023. Annual principal and interest payments on the bonds are expected to require 9 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$122,400. Principal and interest paid for the current year and total customer net revenues were \$129,897 and \$5,174,456, respectively.

**10. Restricted Net Position:**

Restricted Net Position for the year ended December 31, 2022 was as follows:

	<b>Governmental Funds</b>	<b>Proprietary Funds</b>	<b>Total</b>
Debt service	\$ 400,389	\$ 511,653	\$ 912,042
Library	62,435	--	62,435
Customer deposits	--	24,852	24,852
SDRS pension purposes	261,299	--	261,299
Total	\$ 724,123	\$ 536,505	\$ 1,260,628

These balances are restricted due to federal grant and statutory requirements.

**11. Interfund Transfers:**

Interfund transfers for the year ended December 31, 2022 were as follows:

Transfer from Electric, Telephone, and Solid Waste funds to cover temporary cash shortages in the general fund.	\$ 550,000
Transfer from Additional Sales Tax Fund to cover debt payments in the Community Center and Clubhouse Debt Service Fund.	\$ 102,243
Transfer from General Fund to Golf Course fund to cover negative cash shortages.	\$ 61,540
Transfer from Liquor Fund to General Fund to close out fund.	\$ 43,616

**12. Pension Plan:**

**Plan Information:**

All employees, working for more than 20 hours per week during the year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer hybrid defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering, and amending plan provisions are found in South Dakota Codified Law 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <http://sdrs.sd.gov/publications.aspx> or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605)773-3731.

## 12. Pension Plan: (Continued)

### **Benefits Provided:**

SDRS has four classes of employees, Class A general members, Class B public safety and judicial members, Class C Cement Plant Retirement Fund members, and Class D Department of Labor and Regulation members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirement benefits that do not meet the above criteria may be payable at a reduced level. Class A and B eligible spouse of Foundation members will receive a 60 percent joint survivor benefit when the member dies.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

Legislation enacted in 2021 reduced the minimum COLA from 0.5 percent to 0.0 percent.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**12. Pension Plan: (Continued)**

**Contributions:**

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A members, 6% of salary; Class B Judicial Members, 9% of salary; and Class B Public Safety Members, 8% of salary. State Statute also requires the employer to contribute an amount equal to the employee's contribution. The City's share of contributions to the SDRS for the fiscal years ended December 31, 2022, 2021, and 2020 equal to the required contributions each year as follows:

2022	\$	116,054
2021	\$	114,672
2020	\$	116,691

**Pension Asset, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:**

At June 30, 2022, SDRS is 100.1% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement System, for the City as of this measurement period ending June 30, 2022, and reported by the City as of December 31, 2022 are as follows:

Proportionate share of pension liability	\$ 11,442,649
Less proportionate share of total pension restricted for pension benefits	<u>11,450,310</u>
Proportionate share of net pension liability (asset)	<u><u>\$ (7,661)</u></u>

At December 31, 2022, the City reported an asset of (\$7,661) for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2022 and the total pension asset used to calculate the net pension asset was based on a projection of the City's share of contributions to the plan relative to the contributions of all participating entities. As of June 30, 2022, the City's proportion was 0.08105800%, which is a decrease of -0.0029750% from its proportion measured as of June 30, 2021.

For the year ended December 31, 2022 the City recognized a reduction of pension expense of (\$34,091). At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**12. Pension Plan: (Continued)**

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 145,823	\$ 497
Changes in assumption	486,879	426,683
Net Difference between projected and actual earnings on pension plan investments	--	18,358
Changes in proportion and difference between City contributions and proportionate share of contributions	5,320	342
City contributions subsequent to the measurement date	61,496	--
Total Revenues	\$ 699,518	\$ 445,880

\$61,496 reported as deferred outflow of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions recognized in pension expense (reduction of pension expense) as follows:

2023	\$ 51,940
2024	107,924
2025	(120,008)
2026	152,284
	\$ 192,140

**Actuarial Assumptions:**

The total pension liability (asset) in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	Graded by years of service, from 7.66% at entry to 3.15% after 25 years of service
Discount Rate	6.50% net of plan investment expense. This is composed of an average inflation rate of 2.5% and real returns of 4%
Future COLAs	2.10%

**12. Pension Plan: (Continued)**

Mortality Rates:

All mortality rates based on Pub-2010 amount-weighted mortality tables, projected generationally with improvement scale MP-2020.

Active and Terminated Vested Members:

Teachers, Certified Regents, and Judicial: PubT-2010

Other Class A Members: PubG-2010

Public Safety Members: PubS-2010

Retired members:

Teachers, Certified Regents, and Judicial Retirees: PubT-2010, 108% of rates above age 65

Other Class A Retirees: PubG-2010, 93% of rates through age 74, increasing by 2% per year until 111% of rates at age 83 and above.

Public Safety Retirees: PubS-2010; 102% of rates at all ages

Beneficiaries:

PubG-2010 contingent survivor mortality table

Others: PubG-2010 disabled member mortality table

The actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period of July 1, 2016, to June 30, 2021.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e. the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.) The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 (see discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Expected Real Rate of Return</u>
Global equity	58.0%	3.7%
Fixed income	30.0%	1.1%
Real estate	10.0%	2.6%
Cash	2.0%	40.0%
Total	<u>100%</u>	

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**12. Pension Plan: (Continued)**

**Discount Rate:**

The discount rate used to measure the total pension liability (asset) was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

**Sensitivity of Liability to Changes in the Discount Rate:**

The following presents the City's proportionate share of net pension asset calculated using the discount rate of 6.50 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1 – percentage point lower (5.50%) or 1 – percentage point higher (7.50%) than the current rate:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
City's proportionate share of the net pension liability (asset)	\$ 1,590,630	\$ (7,661)	\$(1,313,886)

**Pension Plan Fiduciary Net Position:**

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

**13. Joint Ventures:**

The City joined with numerous other telephone companies in the state in ownership of the South Dakota Network, a fiber optic ring encompassing the state for communications transmission. The network is a revenue pooling arrangement in which revenues are derived based on the amount of usage of the system. The City invested in the network based on its usage for the year ended December 31, 1998, and the number of lines in existence on December 31, 1998. The City of Beresford's investment in the network is \$89,490. The City received \$70,813 in revenue distributions from this investment during 2022.

Separate financial statements for the network are available from South Dakota Network, Inc. 2900 West 10<sup>th</sup> Street Sioux Falls, South Dakota 57104.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**13. Joint Ventures: (Continued)**

The following is the percentages of stock ownership as of December 31, 2022:

Alliance Communication Coop	7.51%
City of Beresford/Beresford Municipal Telephone	1.28%
City of Brookings/Swiftel Communications	7.84%
City of Faith/Faith Municipal Telephone	0.89%
CRST Telephone Co.	2.39%
Golden West Telecommunications	26.72%
Interstate Telecommunications Coop.	10.56%
James Valley Telecommunications	4.31%
Kennebec Telephone Co.	1.16%
Midstates Communications	4.37%
RC Technologies	2.35%
Santel Communications Coop.	4.70%
Triotel Communications Inc	5.31%
Valley Telecommunications Coop.	3.88%
Venture Communications Coop.	9.45%
West River Cooperative Telephone Co.	4.21%
West River Telecommunications Coop.	3.07%

**14. Risk Management:**

The City is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended December 31, 2022, the City managed its risks as follows:

Employee Health Insurance:

The City purchases employee health insurance for its employees from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Liability Insurance:

The City purchases liability insurance for risks related to torts; theft or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims from these risks have not exceeded the liability coverage during the past three years.

Worker's Compensation:

The City purchases liability insurance for worker's compensation from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

**City of Beresford**  
Notes to the Financial Statements  
December 31, 2022

---

**14. Risk Management: (Continued)**

Unemployment Benefits:

The city provides coverage for unemployment benefits by paying into the Unemployment Compensation Fund established by state law and managed by the State of South Dakota.

During the year ended December 31, 2022, one claim was filed for unemployment benefits. This claim resulted in payment of benefits in the amount of \$0. At December 31, 2022, no claims were outstanding. One claim is anticipated for 2023. The amount of the claim is currently unknown.

**15. Component Unit Notes Receivable:**

In August of 2014, the City of Beresford issued a loan to BEDCO in the amount of \$665,000 for development and construction of 28 new housing lots on the south end of the Bridges Golf Course on land that was owned by BEDCO. An additional \$200,000 was issued to BEDCO on November 4, 2015 to complete the next phase which included three more lots. In November of 2022, the City of Beresford issued an additional \$150,000 to BEDCO for the purchase of property at 13<sup>th</sup> and Cottonwood for future development. The remaining amount due on this note as of December 31, 2022 is \$183,070.

**16. Significant Contingencies-Litigation:**

At December 31, 2022, the City of Beresford was not involved in any litigation.

**City of Beresford**  
Notes to the Required Supplementary Information  
Schedules of Budgetary Comparisons for the General Fund  
and for each major Special Revenue Fund with a legally required budget  
For the Year Ended December 31, 2022

---

**Note 1. Budgets and Budgetary Accounting:**

The City follows these procedures in establishing the budgetary data reflected in the schedules:

1. At the first regular board meeting in September of each year or within ten days thereafter, the Governing Board/City Commission introduces the annual appropriation ordinance for the ensuing fiscal year.
2. After adoption by the Governing Board/City Commission, the operating budget is legally binding and actual expenditures for each purpose cannot exceed the amounts budgeted, except as indicated in number 4.
3. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total municipal budget and may be transferred by resolution of the Governing Board/City Commission to any other budget category that is deemed insufficient during the year.
4. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets.
5. Unexpended appropriations lapse at year end unless encumbered by resolution of the Governing Board/City Commission.
6. Formal budgetary integration is employed as a management control device during the year for the General Fund and special revenue funds.
7. Budgets for the General Fund and special revenue funds are adopted on a basis consistent with accounting principles generally accepted in the United States (USGAAP).

**Note 2. GAAP/Budgetary Accounting Basis Differences:**

The financial statements prepared in conformity with USGAAP applied within the context of the modified accrual basis of accounting present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new fire truck would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a fire truck would be reported as an expenditure of the Public Safety/Fire Department function of government, along with all other current Fire Department related expenditures.

## City of Beresford

### Notes to Required Supplementary Information

#### Schedule of the Proportionate Share of the Net Pension Liability (Asset) and Schedule of Pension Contributions As of December 31,

---

#### **Changes from Prior Valuation:**

The June 30, 2022 Actuarial Valuation reflects numerous changes to the actuarial assumptions as a result of an experience analysis completed since the June 30, 2021 Actuarial Valuation. In addition, two changes in actuarial methods have been implemented since the prior valuation.

The details of the changes since the last valuation are as follows:

#### **Benefit Provision Changes:**

During the 2022 Legislative Session no significant SDRS benefit changes were made and gaming enforcement agents became Class B Public Safety Members.

#### **Actuarial Assumption Changes:**

As a result of an experience analysis covering the period from July 1, 2016 to June 30, 2021 and presented to the SDRS Board of Trustees in April and June, 2022, significant changes to the actuarial assumptions were recommended by the SDRS Senior Actuary and adopted by the Board of Trustees first effective for this June 30, 2022 actuarial valuation.

The changes to economic assumptions included increasing the price inflation to 2.50% and increasing the wage inflation to 3.15%. The current assumed investment return assumption of 6.50% was retained, lowering the assumed real investment return to 4.00%. The baseline COLA assumption of 2.25% was also retained. Salary increase assumptions were modified to reflect the increase in assumed wage inflation and recent experience. The assumed interest on accumulated contributions was decreased to 2.25%.

The demographic assumptions were also reviewed and revised. The mortality assumption was changed to the Pub-2010 amount-weighted tables using separate tables for teachers, general, and public safety retirees, with assumptions for retirees adjusted based on credible experience. The mortality assumption for active and terminated vested members was changed to the unadjusted amount-weighted Pub-2010 tables, again by member classification and the assumption for beneficiaries was changed to the amount-weighted Pub-2010 general contingent survivor table. Adjustments based on experience were also made to the assumptions regarding retirement, termination, disability, age of spouses for married Foundation members, percentage of terminated vested members electing a refund, and benefit commencement age for terminated vested Public Safety members with 15 or more years of service.

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0% (0.5% prior to 2021) and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%.

As of June 30, 2021, the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (2.25%) was greater than 100% and the full 0% to 3.5% COLA range was payable. For the June 30, 2021 Actuarial Valuation, future COLAs were assumed to equal the baseline COLA assumption of 2.25%.

## City of Beresford

### Notes to Required Supplementary Information

#### Schedule of the Proportionate Share of the Net Pension Liability (Asset) and Schedule of Pension Contributions As of December 31, (Continued)

---

As of June 30, 2022, the FVFR assuming future COLAs equal to the baseline COLA assumption of 2.25% is less than 100% and the July 2023 SDRS COLA is limited to a restricted maximum of 2.10%. The July 2023 SDRS COLA will equal inflation, between 0% and 2.10%. For this June 30, 2022 Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA of 2.10%.

Actuarial assumptions are reviewed for reasonability annually and reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2027 Actuarial Valuation and any recommended 7 changes approved by the Board of Trustees are anticipated to be first implemented in the June 30, 2027 Actuarial Valuation.

#### **Actuarial Method Changes:**

Actuarial method changes with minor impact were implemented for this valuation after recommendation by Cavanaugh Macdonald Consulting as part other reviews of prior valuations. As a result, liabilities and normal costs for refund benefits and the Generational Variable Retirement Account are now calculated using the entry age normal cost method with normal costs based on the expected value of these accounts rather than the actual balance.
